

Green New Deal Candidate Pledge (State & Local)

As a Green New Deal candidate, I pledge to use my office to champion a Green New Deal in any and all ways, including but not limited to:

- developing and supporting Green New Deal legislation and/or resolutions;
- building support amongst my colleagues for a Green New Deal; and publicly advocating for
- the necessity of a Green New Deal.

In order to fully uphold this duty, I pledge to not take contributions over \$200 from oil, gas, and coal industry executives, lobbyists, or PACs and instead prioritize the health of our families, climate, and democracy over fossil fuel industry profits.

People & Planet First Campaign

Most of us want the same things: a good life for ourselves and our children, a better future that we can look forward to, and to be treated fairly.

But right now, corporations are profiting from damaging our climate and dividing people based on race, background, or where we live, harming our communities—and hurting Black and brown, and indigenous people the most.

That's why the People's Action People & Planet First campaign is focused on:

- A 100% just energy economy
- Green jobs
- Democratizing the energy grid
- An end to sacrifice zones

We aim to localize, enact, and implement a jobs-and-justice forward Green New Deal that decarbonizes the nation by at least 50 percent by 2030.

As a member of the Green New Deal Network, we are working in partnership to build support and commitment to the candidate pledge moving across the country with our allies.
